LUXURY SURFACES

15 YEAR RESIDENTIAL WARRANTY

ULTRA
QUARTZ

Ultra-Quartz brings a collection of luxurious patterns and forms of Engineered Stone made with innovative technology that provides long lasting durability and appearance like natural marble.

The colors have a unique identity as they have been designed with extensive R&D. The Natural Vein technology collection allows the material to exhibit the veins to appear almost like a real marble.

Its cutting-edge technology uses very high-quality raw materials which gives a compact white grain less background and a brilliant sheen on the surface.

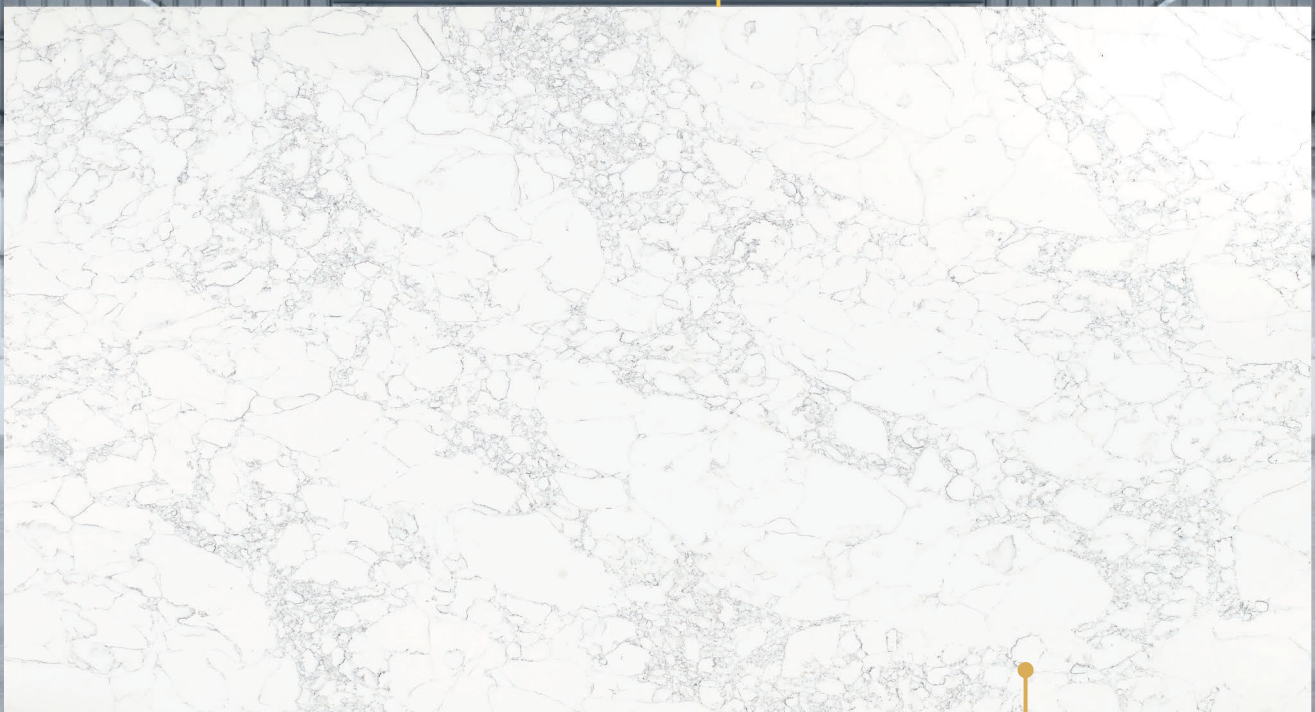

The versatility and endurance of the product make it suitable for any commercial or residential application
